News Update: System Upgrade

We would like to inform our patients that the surgery will be changing our electronic record system in early September.

Work will begin on this from 28th August with the complete switch over taking place on 5th September.

During this time we hope to keep disruption to our patients to a minimum and make the transition as smooth as possible. In order to do this we may need to reduce the number of appointments we have available on 5th September.

If you are registered for [online services](#) you will be required to set up a new account. Please speak to a member of our reception team who will provide you with the details. We will be offering a dedicated member of staff in the first week of transition to assist patients in the waiting room with their new online registration.

We thank you for your patience and understanding during this period.
