

## Infection Control at Victoria Surgery

The Partners and staff at Victoria Surgery are committed to minimising the risk of infection to ensure the safety of patients and staff.

The surgery has policies and protocols in place to support good infection prevention and control practices, and to ensure our facilities are clean and fit for purpose.

The Infection Prevention and Control Lead Clinician for the practice is Nurse Karen Smith.

If you have any concerns regarding infection control or the cleanliness of the practice, please do not hesitate to contact Jo Shaw, Practice Manager.
